Dear readers, I would like to apologize for almost two years of silence. We start new year with publication of 12<sup>th</sup> volume of Ion Exchange Letters 2020 to narrow the gap. In 2021 we will fully restart the journal and implement more rapid processing of the articles overseen by technical editors. These changes are crucial to minimize the delays caused by lax approach of editor (me).

Please help us to restart the journal by submitting your articles.
